## HOSE REELS, BLOW & WATER GUNS

Blow & water guns effectively clean surfaces with air or water with powerful blowing force. They feature a wide variety of tips for different cleaning methods. Hose reels are used to store hose. There are spring & manual rewind & are categorised by the diameter & length of hose they hold, the pressure rating & the rewind method.

# CEJN Blow Guns – Series 208

## 208 Blow Gun Features

- Easy connection
- Ergonomically designed for comfortable handling
- Suspension possible by both the built-in hook and the handle
- The normal grip is adjusted to fit the hand during normal usage
- Extremely durable acetal plastic that also isolates against cold media
- Infinitely variable airflow with high volume flow for efficient cleaning

## 208 Detect Blow Gun Additional Features

- Made of 100% food grade plastic to improve food safety in the food & beverage production process
- The first metal & X-ray detectable blow gun to be introduced on the global market, reducing the risks of accidental contamination, product rejections, expensive re-calls & waste

### SPECIFICATIONS

Airflow at inlet pressure of 6 bar (87 psi)	500 l/m (18 CFM)
Max. working pressure	Standard blow guns: 16 bar (232 psi) 8 bar (116 psi) blow gun with regulator
Temperature range	-20°C to +60°C (-4°F to +140°F)

### APPLICABLE SAFETY STANDARDS

The products with the 'OK' symbol are compliant with the OSHA directive STD1-13.1 (1910-242(b)). When dead ending occurs, static pressure at the main orifice shall not exceed 30 psi (2 bar).

The products with the 'ear' symbol are compliant with the International Standard ISO 4414 – Pneumatic Fluid Power & OSHA 1910.95 – Occupational Noise Exposure. These products have a sound level below 85 dBA & meet the EU Machine Directive §1.5.8. concerning noise reduction demands.

# CEJN MultiFlow Air & Fluid Blow Guns

## Description

CEJN's new MultiFlow blow gun effectively cleans surfaces with air or water with unparalleled blowing force. Precise flow is achieved by adjustable flow settings. Nozzle adjusts from narrow jet to wide beam. The MultiFlow meets and exceeds OSHA safety standards when dead-ended.

## Features / Benefits

- Unmatched blowing force
- Adjustable flow control
- Adjustable beam

### SPECIFICATIONS

Air flow	200 – 1200 l/min (7 – 42 CFM)
Fluid flow	5 – 25 l/min (1.1 – 5.5 GPM UK)
Air sound level	79 – 101 dBA
Max working pressure	16 bar (232 psi)
Min burst pressure	64 bar (928 psi)
Temperature range 16 bar	-20°C to +60°C (-4°F to +140°F)
Temperature range 10 bar	-20°C to +80°C (-4°F to +176°F)
Media	Air & non-explosive water based liquids

### MATERIALS

Body	POM, TPE, aluminium
Seal	NBR

### APPLICABLE SAFETY STANDARDS

The products with the 'OK' symbol are compliant with the OSHA directive STD1-13.1 (1910-242(b)). When dead ending occurs, static pressure at the main orifice shall not exceed 30 psi (2 bar).

The products with the 'ear' symbol are compliant with the International Standard ISO 4414 – Pneumatic Fluid Power & OSHA 1910.95 – Occupational Noise Exposure. These products have a sound level below 85 dBA & meet the EU Machine Directive §1.5.8. concerning noise reduction demands.

## DESCRIPTION

The Typhoon is Coilhose's most powerful standard blow gun, delivering up to 34 CFM (2500 series), 51 CFM (3800 series) & over three pounds of thrust at 125 psi. The Typhoon is ideal for heavy duty clean-up & blow-off, & its lightweight & sleek design make this gun a favourite.

## FEATURES / BENEFITS

- Delivers up to 51 CFM
- Lightweight & ergonomic
- Variable flow trigger for control
- Maximum flow for easy clean-up & blow-off
- Integral hanging hook
- Wide variety of tips & extensions available

## CEG 1 BLOW GUN RANGE

### DESCRIPTION

The CEG-1 is ergonomically designed to fit the natural contour of the user's hand, maximising comfort even during long term use. This gives the user a wider range of motion to direct the additional CEG-1 working capacity right where it's needed, resulting in increased blow-off efficiency.

### FEATURES / BENEFITS

- The curve of the heavy duty steel lever & soft vinyl grip allows the thumb to rest in a natural position, allowing maximum comfort
- Full-size hanging hook makes the gun easy to store & use
- Unique thermoplastic wrap-around body cover maximises user comfort
- OSHA compliant
- Maximum inlet 150 psi

### MATERIALS

- Die cast zinc body
- 1/4" BSPP female thread port
- Aluminium with black anodised sleeve tip
- Nickel plated steel lever

2020

### FEATURES / BENEFITS

- Made from nylon 6 abrasive resistant material
- Low air consumption
- Hand held or static site
- Blow or vacuum
- Use filtered air @ 60 – 115 psi / 10 mm bore air-line

SPECIFICATIONS	LVM 22	LVM AP 22
CFM @ 60 psi	9 in / 54 out	9 in / 54 out
CFM @ 100 psi	14.5 in / 101.5 out	14.5 in / 101.5 out
Air inlet size	1/4" BSPT male	1/4" compression fitting
Conveying hose ID bore	32 mm	32 mm

### SAFETY

We recommend that dry filtered compressed air & appropriate safety equipment is used with this product.

For optimum performance, the air feed line should be at least 3/8" ID bore.

# CEJN Safety Hose Reels

CEJN offers high-quality hose and cable reels with either a CEJN polyurethane hose or a rubber cable. These reels are designed to be easily manoeuvrable and can be mounted on a ceiling or wall. Additionally, they offer an impressive 300-degree range of motion. The exterior housing is robust and serves to protect the hose or cable, as well as the reel mechanism. The feeding action of these reels is smooth and tangle-free, and a stop function can be activated if continuous feeding is not required.

## Features / Benefits

- High flow & low pressure drop
- Strong, slow retraction
- Quicker hose change
- Hose guide
- Soft stop-ball prevents tripping
- Lowest pressure drop on the market

GEN III SERIES

FEATURES / BENEFITS

- Durable yet economical
- Lightweight & easy to operate
- Manufactured from tough, corrosion proof, composite materials
- Heavy duty swivel reduces possible cracking in freezing conditions
- Multi position locking mechanism which, when released, provides a complete, positive retraction every time
- Hotwash reels for use in food preparation & food processing areas
- Garden hose complete with 2 m side connection hose & inlet fitting
- Barrier reels are the ideal way to quickly set up personnel safety barriers

REDASHE WARRANTY

All products supplied by Redashe are warranted from one to 10 years, depending on manufacturer. Hose supplied by Redashe carries the warranty as listed by the manufacturer. A flexible connection must be used between the hose reel & supply. Use of a solid connection will void the swivel warranty. Redashe meets the requirements of BS EN ISO 9001:2008. Certification of the system was obtained by BSI Quality Assurance on 9th December 1991, number 4601QM8001.

All warranties cover reel only & exclude any hose supplied

RETRACTA R3 SERIES

REINFORCED PVC HOSE

FEATURES / BENEFITS

- Tough, corrosion free polypropylene construction
- Supplied with fitted hose for specified application
- Choice of lockable mounting brackets
- Virtually maintenance free
- Lightweight – average just 10 kg, easy to install
- Full automatic hose rewind for neat & tidy storage
- Low effort, easy-to-use rewind tension

REELWORKS SERIES

POLYPROPYLENE 60°C MAX

FEATURES / BENEFITS

- Lightweight & durable, just 5.7 kg
- Constructed in high-impact UV stabilised polypropylene
- Supplied with fitted PVC hose for immediate installation
- Fully assembled, includes 3 ft connecting hose
- Suitable for compressed air & water
- Integral wall / overhead mounting bracket
- Latching of hose at any length
- Fully automatic hose rewind for neat & tidy storage
- Virtually maintenance free

**REEL WITH HOSE**

POLYMER HOSE COMPACT

FEATURES / BENEFITS

- Supplied with 15 m x 3/8" or 1/2" flexible, premium hybrid polymer hose
- Hose has no memory & lays flat when in use
- High quality, durable polypropylene housing
- Fully automatic spring rewind
- Low effort, easy to use, rewind tension
- Integral pivoting wall bracket, swivels through 180°
- Latching of hose at any length
- Latching system can be set to free run if required
- Working pressure up to 300 psi (20 bar)

POLYPROPYLENE GARDEN HOSE

FEATURES / BENEFITS

- Lightweight & durable, just 10.6 kg
- Constructed in high impact UV stabilised polypropylene
- Supplied & fitted with PVC hose for immediate & trouble free installation
- Fully assembled, includes 36" / 0.9 m connecting hose
- Complete with water gun & convenient handle for portable use
- Fitted with speed, control to help automatic hose rewinding constant & at a safe speed keeping it under control at all times
- Hose layering system ensures neat & trouble free storage of hose
- Spring fully enclosed & lubricated
- Integral wall / overhead pivoting bracket
- Non-snap rollers reduce hose wear

SPRING REWIND CABLE REELS

230 VOLT REEL

FEATURES / BENEFITS

- Slow retraction system – prevents hose from speeding back to the reel if the hose is let go – safe operation
- Lightweight & durable, from just 7 kg
- Supplied with 15 m of 3 core, 1.5 mm cable
- Integral wall mounting swivel bracket
- Latching of cable at any length
- Fitted circuit breaker
- Electricity indicator LED light
- 1.5 m fitted inlet cable
- Supplied with fitted UK plug & sockets
- For indoor use only
- 2 year limited warranty

# Sicomat Automatic Hose Reels

Sicomat offers a complete line of automatic hose reels that ensure the highest reliability and safety. The hose is rewound automatically to prevent any accidental tripping of the operator.

The wound hose is also kept safe from potential damage caused by trampling or incorrect rewinding, as it can be locked in intermediate positions to reach different workplace areas quickly. Using Sicomat hose reels guarantees a considerable reduction in production downtime, as the operator saves time by no longer having to rewind and arrange hoses, thus improving productivity.

## R111 SERIES

Construction	Steel: galvanised & powder coated
Suitable for	Air only
Weight	3 kg
Supplied with	Swivel bracket & supply polyurethane hose

rR530020051	20 m	5/16"	3/8" F / 3/8" M BSPT	£1541.58
rR530020038	20 m	3/8"	3/8" F / 3/8" M BSPT	£1541.58

## R531 SERIES

### 150°C MAX. TEMPERATURE / 400 BAR WORKING PRESSURE

rR531020051	20 m	5/16"	3/8" female BSPP	£1589.88
rR531020038	20 m	3/8"	3/8" female BSPP	£1627.11

## R125 SERIES

Construction	Powder coated steel, tubular structure with galvanised drum
Suitable for	Air only
Weight	rR12530008 8.4 kg rR125040008 9.0 kg rR125025010 8.4 kg
Supplied with	Easy folding handle & supply polyurethane hose

## R125 SERIES

### 20 BAR WORKING PRESSURE

5420

PART NUMBER	LENGTH	HOSE ID	INLET / OUTLET	PRICE
rR125030008	30 m	8 x 12 mm	1/4" male BSPT	£241.50
rR125040008	40 m	8 x 12 mm	1/4" male BSPT	£277.73
rR125025010	25 m	10 x 14 mm	3/8" male BSPT	£255.39

### FLEX TYPE A FEATURES

- High impact resistant composite housing
- 7 models selected for a load range from 0 to 3.5 kg
- Adjustable spring load throughout & ergonomic handgrip knob
- Adjustable rope stroke
- Available with nylon braided rope or steel braided, nylon coated wire
- Tools in conformity with CE directives

4610

### FLEX TYPE B FEATURES

- Metal housing
- 14 models selected for a load range from 0.5 to 11 kg
- Adjustable spring load throughout & safety removable handle
- Adjustable rope stroke
- Available with nylon braided rope or steel braided, nylon coated wire
- Tools in conformity with CE directives

4610

Matic hose diameter internal: 6.5 mm, external: 10 mm  
Maximum working pressure: 10 bar

**AIR CURTAIN**

**FEATURES / BENEFITS**

- 25:1 air amplification
- Up to 30 dBA noise reduction
- Health & safety compliant
- Low maintenance – no moving parts
- Ease of mounting – flange running the entire length

**APPLICATIONS**

- Product drying
- Product cooling
- Swarf contamination removal
- Air saving – reduction of energy bills
- Compressor demand reduction
- Noise reduction

5700

**FEATURES / BENEFITS**

- 4 to 25:1 air amplification – can cut compressed air demand by 70%
- Up to 30 dBA noise reduction
- Health & safety compliant
- Low maintenance – no moving parts
- Application specific set-up (no shims) – fully adjustable

**APPLICATIONS**

- Product redirection
- Product drying
- Air saving – reduction of energy bills
- Compressor demand reduction
- Noise reduction
- Product cooling
- Blowing & vacuum applications

**SAFETY BLOW GUN**

**DESCRIPTION**

Meech energy saving nozzles & blow guns direct compressed air over a curved surface on the outside of the nozzle. This action entrains the ambient air & amplifies the total air flow. Meech nozzles & blow guns can save up to 70% of compressed air demand, whilst significantly reducing noise levels. They have hundreds of applications & will significantly reduce running costs.

**FEATURES / BENEFITS**

- 25:1 air amplification
- Up to 30 dBA noise reduction
- Health & safety compliant
- Low maintenance – no moving parts
- Application specific set-up
- Operator comfort – ergonomic lightweight aluminium handle

**APPLICATIONS**

- Air saving - reduction of energy bills
- Compressor demand reduction
- Swarf removal
- Any blow gun task

**SPECIFICATIONS**

Inlet air pressure	Air consumption	Sound level
20 psi (1.4 bar)	5 CFM (142 lpm)	65 dBA
40 psi (2.7 bar)	9 CFM (255 lpm)	71 dBA

**COLDSTREAM AIR GUN**

**DESCRIPTION**

Coldstream air guns, from Meech, use compressed air to provide a cold air source commonly used for spot cooling. Available in adjustable & non-adjustable versions with a choice of knuckle trunking. The Coldstream air gun is capable of achieving temperatures that are over 40°C below the compressed air temperature.

**FEATURES / BENEFITS**

- Available in two sizes
- Up to 30 dBA noise reduction
- Health & safety compliant
- Low maintenance – no moving parts
- Application specific set-up – supplied with 4 generators
- Easy to install – secure in place with a strong magnet

**APPLICATIONS**

- Ultrasonic weld cooling
- Spot cooling
- Component cooling
- Tool cooling

**ADJUSTABLE AIR GUN**

PART NUMBER	SIZE	OUTLET	PRICE
AIRM-A60015A	280 mm x 54 mm	Single	£479.60
AIRM-A60015AY	280 mm x 54 mm	Double	£488.40

**NON-ADJUSTABLE AIR GUN**

PART NUMBER	SIZE	OUTLET	PRICE
AIRM-A60015	280 mm x 54 mm	Single	£451.00
AIRM-A60015Y	280 mm x 54 mm	Double	£468.60
AIRM-A60008	229 mm x 45 mm	Single	£475.20

**NEEDLE COOLER**

**DESCRIPTION**

Needle coolers, from Meech, use compressed air to provide a cold air source. Combining a small vortex tube, hot-end silencer & flexible knuckle trunking that direct the cold air flow to the target. Typically used to cool sewing needles, a magnetic mounting bracket means the cooler can be fixed to virtually any metal surface. The needle cooler is capable of providing a cold air source up to 50°C below the compressed air temperature.

**FEATURES / BENEFITS**

- Stainless steel construction – hard wearing
- Low maintenance – no moving parts
- Suitable for harsh environments
- Easy direction of cold airflow
- Quick & easy mounting – magnetic base

**NEEDLE COOLER**

PART NUMBER	SIZE	OUTLET	PRICE
AIRM-A20503	148 mm x 45 mm	Single	£338.80
AIRM-A20504	148 mm x 45 mm	Double	£358.60

**CABINET COOLER**

**DESCRIPTION**

Meech air technology stainless steel cabinet cooler systems provide a cold air source to stop cabinets overheating & prevent ingress of contamination, such as dust or moisture. When compared to fans that are commonly found in cabinets, Meech cabinet cooling systems provide the ideal cooling solution.

**FEATURES / BENEFITS**

- Alternative to traditional AC units
- Up to 30 dBA noise reduction
- Health & Safety compliant
- Low maintenance – no moving parts
- Application specific set-up
- Easy to install
- Prevents dust entering the cabinet

**APPLICATIONS**

- Industrial PC cooling
- CCTV cooling
- Cooling equipment on marine vessels
- Machine panel cooling
- Cooling LCD touch screens

5700

**CABINET COOLER UNIT**

PART NUMBER	INCLUDES	PRICE
AIRM-A70025	4 generators	£561.00

**EX CABINET COOLER UNIT**

PART NUMBER	INCLUDES	PRICE
AIRM-A70025EX	4 generators & 2.5 m of cooling tube	£701.80

**CABINET COOLER SYSTEM**

AIRM-A70325-24	24 V solenoid & thermostat	£792.00
AIRM-A70325-240	240 V solenoid & thermostat	£792.00
AIRM-A70325-110	110 V solenoid & thermostat	£792.00

**VORTEX TUBE**

**DESCRIPTION**

Meech air technology stainless steel vortex tubes convert compressed air into two airflows, one extremely cold & the other extremely hot. Vortex tubes have no moving parts & can produce a drop in temperature up to 50°C below the compressed air temperature, whilst hot air can be up to 50°C above compressed air temperature.

**FEATURES / BENEFITS**

- Cold air to 50°C below compressed air temperature
- Hot air to 50°C above compressed air temperature
- Hard wearing – manufactured from stainless steel
- Maintenance free – no moving parts
- Accurate temperature control

**APPLICATIONS**

- Spot cooling
- Weld cooling
- Plastic slitting
- Product cooling
- Foodstuffs cooling

5700

AIRM-A21035	35 CFM	Cold L	£336.60

**EXPERIMENTAL KITS**

**DESCRIPTION**

The Meech experimental kit incorporates a Meech vortex tube with a cold end silencer & a length of flexible knuckle trunking, which can be used to direct the air flow. The experimental kit also includes all 8 generators, that allows for the most flexible temperature & air consumption, perfect for applications that require changing cold air temperature.

**FEATURES / BENEFITS**

- Low maintenance – no moving parts
- Suitable for a range of applications
- No electricity costs
- Available in 2 sizes
- Runs only on compressed air
- Stainless steel construction – hard wearing
- Provided with full range of generators (temperature control)

5700

QUATTROFLEX PROFESSIONAL GARDEN HOSE

FEATURES / BENEFITS

- Extreme pressure resistant & stable, no deformation
- Kink resistant with thick wall & very strong 24-ply reinforcement
- Best quality polymer materials, for long-term & heavy-duty use
- Plasticisers are cadmium, barium, lead & bisphenol-A free
- RAU-PVC 7589, RAU-PVC 8389 & RAU-PVC 6798 does not contain any SVHC >0.1% in accordance with the ECHA candidate list or attachment XIV. of the REACH Regulation (EC) no. 1907/2006
- RAU-PVC 7589, RAU-PVC 8389 & RAU-PVC 6798 complies with the electrical & electronic equipment Directive 2011/65/EU, including the addition Directive 2015/863/EU
- RAU-PVC 7589, RAU-PVC 8389 & RAU-PVC 6798 are phthalate-free according to entries 51 & 52 of the annex XVII. of the REACH Regulation (EC) no. 1907/2006 & free from polycyclic aromatic hydrocarbons according to GS specification AfPS GS 2014:01 PAK & Regulation (EU) no. 1272/2013

APPLICATIONS

- Professional garden hose
- Very suitable for use on reels

New

GREEN LINE GARDEN HOSE

FEATURES / BENEFITS

- 18-fibre diagonal reinforcement: pressure & deformation resistance
- Flexibility & temperature resistance (-20 °C to +60 °C)
- Easy to handle
- For medium-duty use
- Use of phthalate free plasticisers
- Bisphenol-A free
- SVHC free (highly problematic substances) compliant with REACH directive (EC) no. 1907/2006
- PAH free compliant with GS specification AfPS GS 2014:01 PAH & directive (EU) no. 1272/2013
- No heavy metals & brominated flame retardants compliant with RoHS directive 2011/65/EU, & no plasticisers compliant with delegated directive 2015/863

APPLICATIONS

- Hobby sector
- Private households
- Ideal in connection with a hose reel
